Hello Again – clearly I am again focusing on the beautiful website you have designed for us. Sorry I have not devoted more time to this . . .

Attached is a letter which outlines our new partnership with CampDoc – an online resource for camper medical information. This partnership will eliminate our need to have people send us their Insurance forms.

In Christ,
julie

Dear Parents:

Christ is Risen! Truly He is Risen!

Beginning this summer, in our continuous effort to provide the best possible care to all our **YOUTH** throughout the metropolis, we are partnering with CampDoc.com to assist with the collection of medical records for all campers.

Our partnership allows us to consolidate and integrate health information into a centralized and secure location, and also eliminates the needs for sending insurance information directly to the metropolis. CampDoc.com is a secure, encrypted, and password protected website. It is currently used by the Metropolis of San Francisco and we are excited to share its' features and benefits with you!

Approximately one-week after registering your camper on our Thruva Active Network Site, you will receive a "Welcome E-Mail" from CampDoc with information regarding the completion of your child's health information. You will notice that the questions regarding general health, medications, and insurance will no longer need to be answered on Thruva. While this first time may take a few minutes longer, the long-term savings and advantages are worth the effort.

When you receive your "CampDoc Welcome E-Mail", please do the following:

- Click the link to set a new password for your CampDoc.com account.
- Follow the instructions, and complete the health history for your campers.
- Quickly upload any required documents to your CampDoc account.
- Easily return to CampDoc at any time to make changes or updates to your information.

We hope that you will appreciate the ease of CampDoc. the pleasant graphics. the ability to

quickly tab through the various sections, and the elimination of copying your insurance card and form. It is our goal moving forward, to use CampDoc for all our registration needs.

We appreciate your family being a part of our pioneering efforts regarding technology and medical data. And, we also appreciate your continued support of our Summer Camp and all of the Programs we sponsor for our **YOUTH** throughout the year.

Rejoicing in the Resurrection of our Lord,
julie
